Gentlemen:

The Athens City Council has instructed City Attorney L. C. Rucker and City Engineer J. W. Barnett to appear before the Public Service Commission in Atlanta on November 8th to represent Athens in an effort to get the rates on Power reduced.

I think the wholesale users of Athens should back up the city officials in this matter and suggest a conference of the above named, and any other power users you may think of, in the office of Captain Barnett, City Hall, next Monday morning, October 29th, at 11 o'clock.

Please be present. If the time does not suit you, please advise me and we will fix a later date.

Very truly yours,

Harry Hodgson
